Northridge Makes a Major Impact in Education

University Leads State in Teacher Preparation

Cal State Northridge, through its College of Education, once again is California's leading public university in preparing future elementary and high school teachers, according to the latest statistics from the California Commission on Teacher Credentialing.

Students from Northridge's College of Education were awarded 795 teaching credentials during 1999-2000, more than any other public university in California. That total included 602 multiple subject credentials for elementary school teachers and 193 single subject credentials for high school teachers.

"You don't become the leader and stay the leader without good reasons," said Philip Rusche, dean of Northridge's College of Education. "Our good reasons are strong faculty, quality programs and committed students. We're big because of the quality of what we do."

According to the CTC data, Northridge was followed by Cal State San Bernardino with 783 single and multiple subject credential recipients and Cal State Dominguez Hills with 749 recipients during 1999-2000. In total, the entire CSU system was responsible for 10,359 teacher credential awards during that year.

Northridge's College of Education is continuing to respond, with the rest of the Cal State system, to the state's dire need for well-qualified teachers. According to the most recent state report, 18 percent of the certificated public schools staff in Los Angeles County (16,120 educators) worked on emergency permits during 1999-2000.

The high share of Los Angeles County public school educators working without being fully credentialed compared with five percent of public school educators in San Diego County and eight percent in Orange County. Emergency permits allow teachers to work in public schools before they have earned their teaching credentials.

Northridge's education college is facing the challenge of having a very high share of part-time credential candidate students, by some estimates up to 90 percent, because its students typically are hired by school districts under emergency permit status almost before they have even begun their credential programs.

Although the state and the CSU system are facing budget reductions in the coming year, Rusche said Northridge's teacher preparation programs likely will continue to grow. "We're committed to continuing to address the education workforce needs of the greater San Fernando Valley," he said.

Education Professor Wins Fulbright Award

Doris Jones-Nicol, an associate professor in the Educational Psychology and Counseling Department at Cal State Northridge, has been selected as a Fulbright Scholar for the 2001-02 academic year. Jones-Nicol will spend the 2001-02 academic year teaching and doing research in the United Kingdom. She will be teaching at the University of Bath and participating in the International Fulbright Professor Program, a research program which allows Fulbright scholars to spend six months in the U.S. and six months abroad.
Department, has been awarded a prestigious Fulbright scholar grant to spend this year in South Africa lecturing and conducting research that includes looking at the country's devastating AIDS epidemic.

Jones-Nicol is the sole Cal State Northridge professor selected this year to participate in the U.S. government's flagship international exchange program, joining some 800 U.S. faculty and professionals who are traveling abroad. The university now has had about two dozen Fulbright scholars awarded in the past 20 years.

"I was very excited to hear that I had been selected as a Fulbright scholar. It has been a goal of mine for many years," said Jones-Nicol, who left for South Africa in August. "The Fulbright is not only a prestigious and significant award, but it also enables one to make a humanitarian contribution to another culture. It is the experience of a lifetime."

The Fulbright Scholar Program is sponsored by the U.S. State Department. The program, reaching into more than 125 countries, aims to "increase mutual understanding between the people of the United States and the people of other countries." Recipients are selected on their qualifications, potential and willingness to share ideas.

Jones-Nicol is spending the school year at the University of Zululand in South Africa's KwaZulu-Natal Province along the country's eastern coast, helping that university develop a new doctoral program in community psychology. The university is a historically black institution with about 7,000 students.

In her research activities, Jones-Nicol said she will be looking at indigenous healing practices in the country, particularly relating to the AIDS epidemic, and coordinating a conference on that topic next year. She also will be exploring the resilience of adolescents who have faced catastrophic losses from AIDS.

"It's always a privilege and an honor to have your faculty recognized in this way," said Philip Rusche, dean of Northridge's College of Education. Rusche said awards such as the Fulbright highlight the high-caliber of faculty in the college and enhance the educational opportunities for students there.

Jones-Nicol, who came to Northridge in 1987, oversees the department's program in school psychology, a three-year master's program that trains much-needed school psychologists. By profession, Jones-Nicol is a licensed psychologist and a nationally certified school psychologist who has a specialty in play therapy.

Northridge Alumnus is State Teacher of the Year

Cal State Northridge alumnus Scott Charles Malloy (right) began his teaching career long before coming to the university. But it is the special training that Malloy received here that he credits with reinvigorating his teaching and ultimately aiding his selection as California's 2001 Teacher of the Year.

Malloy earned his master's degree in mathematics from Northridge earlier this year after seven years of study while working as a public high school teacher in Orange County. Just as he was nearing completion, Malloy was chosen as California's Teacher of the Year in October 2000 and represented the state in the national competition.

"I'm happy if I can do my part to make CSUN shine, because I had excellent experiences there," said Malloy, who teaches advanced mathematics such as calculus and trigonometry at Brea Olinda High School in Brea. While there, he's managed to accomplish the near impossible-having students clamoring to get into his classes.

Malloy said part of his inspiration grew from participating since 1994 in a special Northridge program for secondary math teachers run by Linda Huetinck, a professor in the College of Education's Secondary Education Department. The program blended education and math classes for teachers with an emphasis on educational technology.

Funded by a special five-year grant from the National Science Foundation, the so-called Viz-Math program, now completed, encouraged the use of visuals in math instruction. "It really reinvigorated my teaching, and led me to later introduce both Advanced Placement Statistics and Computer Science at my school," Malloy said.
"That program was fantastic," he added. "Many of my classmates in that program have gone on to become leaders in math education, presenting at virtually any conference or workshop I attend. My interest in math really came alive in Viz-Math," said Malloy, who reached another milestone when he was married in April.

As California Teacher of the Year, Malloy said he has delivered a speech to 5,000 PTA members at their state convention, participated in the first annual state teachers forum in Sacramento this past summer and appeared on television.

Malloy's philosophy of teaching is "a great teacher should be a great learner." On the side, he teaches chess to elementary students in his district's after school program.
Northridge Makes a Major Impact in Education

University Leads State in Teacher Preparation

Cal State Northridge, through its College of Education, once again is California's leading public university in preparing future elementary and high school teachers, according to the latest statistics from the California Commission on Teacher Credentialing.

"That program was fantastic," he added. "Many of my classmates in that program have gone on to become leaders in math education, presenting at virtually any conference or workshop I attend. My interest in math really came alive in Viz-Math," said Malloy, who reached another milestone when he was married in April.

As California Teacher of the Year, Malloy said he has delivered a speech to 5,000 PTA members at their state convention, participated in the first annual state teachers forum in Sacramento this past summer and appeared on television.

Malloy's philosophy of teaching is "a great teacher should be a great learner." On the side, he teaches chess to elementary students in his district's after school program.
Professor Awarded Grant to Prepare 40 Bilingual Teachers

New Program, Recruiting from Bilingual Teacher's Aides and Seniors, to Begin in Spring 2002

Cal State Northridge and its College of Education, through the efforts of secondary education professor Clara Park, have received a $743,515 grant from the U.S. Department of Education to train bilingual teachers in the Los Angeles area.

"Los Angeles TAP (Teachers and Personnel) 2001: Bilingual Teacher Education Project" during a three-year period will educate 40 new bilingual teachers fluent in the Armenian, Korean, Spanish, Chinese, Tagalog, Vietnamese or Cambodian languages.

Through this grant, Cal State Northridge will become the first teacher education institution in California to educate Armenian and Pilipino bilingual teachers for state certification, said Park, the coordinator of the project.

"Due to recent demographic changes, public schools in California need more bilingual teachers," she added. "As one of the best and largest teacher education institutions in the state, Northridge is fortunate to receive this federal grant to educate a fine cadre of future bilingual teachers."

"To provide effective instruction for these limited English proficient students, schools and school districts need to hire more bilingual teachers, and there is a great shortage of well-qualified bilingual teachers," she said.

Park was awarded the grant in October by the U.S. Department of Education's Office of Bilingual Education and Minority Language Affairs. She has already begun recruiting bilingual participants, working closely with local school districts, including Los Angeles, Glendale and Burbank.

The actual TAP coursework will begin in spring 2002. Park is recruiting from a pool of bilingual teacher's aides, as well as Northridge seniors who are fluent in one of the specified languages and interested in a teaching career.

Undergraduate students with a minimum 3.0 GPA participating in the project will be eligible for scholarships for tuition and books until they complete the Northridge credential preparation program.

Park joined the College of Education as a full-time professor in 1991. With a master's and Ph.D. in education from USC, Park specializes in literacy, English-as-a-Second-Language (ESL) and bilingual education.

Cal State, UC Agree to Expand Joint Education Doctorates

Northridge Already Talking with UCSB About Programs in Curriculum and Educational Administration

The Cal State system has reached a historic agreement with the University of California to expand the offering of joint doctoral programs in education, helping open the door for exploration of the first doctoral program at Cal State Northridge.

The agreement caps a yearlong effort by the CSU to make the Ed.D. degree more accessible and affordable to California's working educators. Northridge's College of Education already has been discussing two possible joint doctoral programs that could be offered with UC Santa Barbara.

Dean Philip Rusche of Northridge's College of Education said administrators and faculty members at both campuses appear committed to pursuing potential joint doctoral programs in education. But Rusche said it may be some time before any final decisions are reached.

A joint Northridge-UCSB committee was formed last summer to begin exploring a joint doctoral program in curriculum instruction, Rusche said. Currently, the two universities are forming another joint committee to explore a potential Ed.D. program in educational administration.

At the CSU system level, Chancellor Charles B. Reed praised the outcome reached by the two university systems. "This is a win-win situation for the California State University and the University of California. But even more, it will be of significant benefit to students in all regions of the state," Reed said.

"The most important aspect is that we will be serving the needs of K-12 and community college leaders who want to continue their own education, which in turn will further the education of their students," Reed added.

The new agreement, described as a "co-equal partnership," achieves the CSU's goal of rapidly expanding the availability of public Ed.D. programs. The agreement creates a joint CSU-UC Ed.D. board, which will be co-chaired by David Spence, the CSU's executive vice chancellor and chief academic officer, and his counterpart in the UC system, C. Judson King, provost and senior vice president.

CSU campuses will be encouraged to submit proposals as soon as possible to the joint board so they can be evaluated. The board immediately will begin developing and implementing proposals for more joint Ed.D. programs. The first new programs could begin as early as fall 2002.

The two university systems have agreed to spend $2 million each on the effort for the first two years. Programs will be developed so that Ed.D. students can attend part-time and still remain in their jobs as teachers, faculty or
administrators at schools and community colleges.

Under the California Master Plan for Higher Education, the University of California has the sole public authority to offer the doctorate. But in the mid-1960s, the UC and CSU partnered to offer a few joint programs. CSU campuses currently offer 17 doctoral programs in conjunction with UC campuses or private universities.

Three of the 17 are Ed.D.s in education, and the rest are Ph.D. programs, although none of those are at Cal State Northridge. The CSU system already prepares about three of every five teachers in California and about half of its K-12 administrators.
FYI

For Your Information publishes announcements of public meetings, notices, events, classes and courses of interest to the university community. The deadline for submitting items generally is noon on Monday, one week before the issue appears. The deadline for the December 10 issue is Mon., December 3.

We strive to include all items submitted by deadline occurring during the two-week period until the next issue. Items further in advance will be run on a space-available basis. Submit future items by e-mailing them to pubinfo@exec.csun.edu, sending them to mail drop 8242 or faxing them to (818) 677-4909. E-mail is the preferred method of submitting.

Note: fmi—means for more information.

Public Meetings

Extended Learning Committee

Meets 3:15-5 p.m. Wed., Nov. 21 in the Matador bookstore complex conference room.

Educational Policies Committee

Meets 2-4 p.m. Wed., Nov. 21 in University Hall 211.
Meets 2-4 p.m. Wed., Dec. 5 in University Hall 211.

University Corp. Executive Committee

Meets 3:30 p.m. Mon., Nov. 26 in University Hall 250.

University Planning and Budget Group

Meets 3-5 p.m. Mon., Dec. 3 in University Hall 211.

A.S. Senate
Meets 2 p.m. Tuesdays through Dec. 4 in the USU Grand Salon.

### Notices

#### Parking Lot Restored

Lot B5 (formerly Lot M) was reopened on Mon., Nov. 12. This is now a mixed-use lot that provides parking for all members of our campus community. It contains parking meters, visitor spaces, carpool spaces, spaces for disabled parking, motorcycles, faculty/staff and students. There are two entrances from Darby Street and one from Plummer Street. Drivers should not enter the lot from Etiwanda Street. The first new campus parking structure is scheduled to start construction in this lot in summer 2002. Lanes to exit and enter via Etiwanda will be provided when the structure is completed.

#### University Catalog

The Office of Faculty Affairs is preparing the alphabetical list of full-time faculty/administration members for the 2002-2004 University Catalog. Faculty/administration members should examine their information in the 2000-2002 catalog and report any changes to Irene Rivera (irene.m.rivera@csun.edu), University Hall 225 (mail drop 8220) or call x2962 by Mon., Dec. 10 to guarantee inclusion in the next catalog. Changes after Dec. 10 will not be incorporated.

#### Sociology Chair Passes

Bernard Thorsell, a longtime Northridge Sociology Department faculty member, died recently. Thorsell came to the university in 1963 as an assistant professor. After earning his Ph.D. from the University of Illinois, he had served in the U.S. Navy and then taught at the University of Buffalo and Humboldt State. Thorsell was known as a gentleman—kind, gentle, humorous and conciliatory. Those characteristics made him an ideal chair of the department, a position the then-full professor held from 1977 until his retirement in 1992. He is survived by his wife Carol and two adult children. The Sociology Department is honoring Thorsell with a scholarship that will be awarded at its spring honors banquet. Donations for the scholarship can be sent to the Sociology Department, with checks payable to CSUN Foundation/Sociology.

#### Professor Potts Passes

Don Potts, emeritus professor of mathematics, passed away Fri., Nov. 2. Potts received his doctorate in 1947 from the California Institute of Technology, joined the Mathematics Department in 1964 as an assistant professor and later served as the chair of the department from 1987-1990. An avid track and field follower, Potts was an official statistician at many Olympic Games.

#### Our Deepest Sympathy

The campus community extends its deepest sympathy to:

- Terri Velazco (Physical Plant Management) and her family on the loss of her father.

#### Weisinger Retirement Party

Dorothy Weisinger recently retired from the Admissions and Records Office after being employed with the university for almost 34 years. Weisinger began in 1967 as an intermediate clerk when the campus was called San Fernando Valley State College. Between 1969 and 1983, Weisinger was promoted to intermediate stenographer, secretary, acting supervising clerk II and eventually to supervising clerk II. In 1984, Weisinger became an administrator in the
Management Personnel Plan. A retirement party will be held at the Odyssey Restaurant at 6 p.m. Thu., Dec. 6. Phyllis Gilson, x3740 or phyllis.gilson@csun.edu.

Winter Intersession

The winter intersession schedule of classes will be available on campus Tue., Nov. 20 at the Extension registration office at the main entrance of the Matador Bookstore complex, room 100. Intersession runs Wed., Jan. 2 to Fri., Jan. 25. Master of Public Administration and many non-credit extension courses will be available. Phyllis Gilson, x3740 or phyllis.gilson@csun.edu.

WASC Self Study Report

To receive a copy of the 2000 Self Study Report submitted to the Western Association of Schools and Colleges for the university's 10-year reaccreditation review, contact Sarah Loffler or Mary Ankeny in the Undergraduate Studies Office, x2969.

Holiday Sale

The Ceramic Guild is sponsoring its 39th annual holiday sale from 10 a.m.-4 p.m. Sat., Dec. 1 and 10 a.m.-3 p.m. Sun., Dec. 2 at the Design Center courtyard, 18226 Halsted St. Original designs by students and staff in ceramics, slumped stained glass, wood, textiles, sculpture and jewelry will be featured.

Online GE Course Grants

The Office of Online Instruction is sponsoring grants of $2,000 each for faculty in developing and teaching a completely online upper division GE course for the fall 2002 semester. The purpose of the stipend is to create more options for students finishing their GE courses. The stipends are in addition to any regular salary paid to faculty for teaching these classes. All full-time and part-time faculty at all ranks who have taught an upper-division GE course that can be put online for fall 2002 are eligible to apply. Requirements are as follows:

- Applicants should have the approval of their department chair to offer the online course prior to application.
- Some prior knowledge of online teaching methods is preferable, although additional computer and pedagogical training will be available.
- The application must be submitted to Online Instruction by Fri., Jan. 18, 2002.
- If selected, the applicant is expected to attend workshops as needed in the spring, construct the online course in the summer and teach in fall 2002 semester.
- Complete and submit the form at www.csun.edu/~webteach/stipends.html. The grant committee will inform recipients after Fri., Feb. 15, 2002.

Web-Enhanced Course Grants

The Office of Online Instruction is sponsoring grants of $500 each for faculty interested in developing a web page to teach a web-enhanced or partially online course. The purpose of the stipend is to enrich and supplement the pedagogical repertoire available to instructors in the traditional classroom setting. Possibilities include online syllabi, interactive study guides or quizzes, and discussion groups via bulletin boards and chat. All full-time and part-time faculty at all ranks who have not yet taught web-enhanced courses are eligible to apply. Requirements are as follows:

- Applicants should discuss their proposal with their department chair prior to applying.
- No prior knowledge of online teaching methods is necessary.
- Application must be submitted by Fri., Jan. 18, 2002.
- If selected, the applicant is expected to attend workshops as needed in the spring, construct a web page and begin teaching with an online technique in the fall 2002 semester. A series of workshops will be offered, such as online pedagogy, a choice of HTML editor classes for web page creation and a choice of single tools, including
HyperNews, Quizmaker and IRC.

- Complete and submit the form at www.csun.edu/~webteach/stipends.html. The grant committee will inform recipients after Fri., Feb. 15, 2002.

Final Examination Schedule

Under university policy for final examinations, as listed on page 47 of the current University Catalog, it states "in lecture courses, no final examination may be scheduled by an instructor prior to the regularly scheduled time." Final examinations for the fall 2001 semester are scheduled between Mon., Dec. 10 and Sat., Dec. 15. Under no circumstances should faculty change the time or date of the scheduled final examination without written approval of the department chair and college dean.

Religious Holidays

Between now and the end of the fall semester, there are a few religious holy days that many students and employees observe. Faculty and staff will want to continue their tradition of being sensitive to students' religious obligations as course deadlines and tests are scheduled. Under campus policy, students who are eligible to take a test or exam are permitted to do so, without penalty, at a time when that activity does not violate their religious creed.

Because some students and employees will observe holy days during the balance of the semester, the following religious holidays are listed below:

- Sun., Dec. 9: celebration of Hanukkah begins at sundown for eight consecutive days.
- Sun., Dec. 16: Muslim feast Eid al-fitr. A holy day that celebrates the end of Ramadan.

Department Name Change

The College of Business and Economics has changed the name of the Department of Management Science to the Department of Systems and Operations Management.

Beck II Awards

The Center for Excellence in Learning and Teaching announces the Judge Julian Beck Instructional Improvement Grant Awards. The following grant recipients are for the spring 2002 semester:

- Amalie Orme (Geography) was awarded $4,786 for her proposal titled "Bridges for Critical Learning in Geography."
- Martha Highfield (Health Sciences) was awarded $4,195 for her proposal titled "Using HSCI 498 as Field Work Analysis."
- Elena Anne Marchisotto (Mathematics) and Robert Stoneham (Learning Resource Center) were awarded $2,400 for their proposal titled "Special Workshops to Strengthen Student Foundations."

Events

Faculty CELT Program

The Center for Excellence in Learning and Teaching is offering the following programs to faculty members in Sierra Hall, 4th floor, room 439.

- Help, I Need Somebody! Student Assistants to the Rescue!
12:30-2 p.m. Tue., Nov. 20.
- Peer Coaching End-of-Semester Luncheon:
  12:30-2 p.m. Tue., Nov. 27.

fmi-Cynthia Desrochers, x5934, or cynthia.desrochers@csun.edu.

First Annual Unico Golf Classic

Unico National District I is sponsoring a daylong golf tournament to benefit students who are part of the Italian Fellowship Program in the College of Humanities on Mon., Nov. 26 at the Porter Valley Country Club, 19216 Singing Hills Dr. in Northridge. Entry fee is $150, which includes cart, green fees, continental breakfast, box lunch, dinner, free gifts and prizes. To register, contact the Unico National District I Golf Classic, (626) 584-0491.

Fallen Journalists Memorial

The Journalism Department will rededicate the Fallen Journalists Memorial, a historic plaque honoring 17 California journalists who lost their lives in pursuit of the news, from 10-11:30 a.m. Tue., Nov. 27. An 18th name will be added during the ceremony. The plaque was first placed in the Press Club building in Los Angeles and, when that building was demolished, it was moved to City Hall. The memorial hung there until the 1994 earthquake and was moved into a closet while City Hall was retrofitted. The second floor of Manzanita Hall will be the memorial's permanent home. KCET "Life and Times" host Jess Marlow will be the master of ceremonies.

Women Studies Lecture

The Women's Center and the Women's Studies Department are sponsoring a lecture by Mary Pardo from the Chicano/a Studies Department from noon-1 p.m. Tue., Nov. 27 in the Women's Center, 18344 Plummer St. Pardo will be speaking on "Mexican American Women Activists: Identity and Resistance in Two Los Angeles Communities." Admission is free and attendees may bring their lunches.

Geological Sciences Lecture

The Geological Sciences Department and the Geology Club are sponsoring a lecture titled "Dating the End of Deformation in the East Sierran Thrust System" at noon Wed., Nov. 28 in Science Building 1, room 210. George Dunne, chair of the department, will be the guest speaker. fmi-x3541.

Retirement Reception

The University Library invites the campus community to a retirement reception for Virginia Elwood (29 years), Ann Perkins (31 years) and David Perkins (32 years). Refreshments and hors d'oeuvres will be served at the University Club from 4-6 p.m., Thu., Nov. 29. fmi-x2271.

Creative Works Symposium

The sixth annual Student Research and Creative Works Symposium for fall 2001 will be held Fri., Nov. 30. Opening ceremony will begin at 9 a.m. in the University Student Union, Grand Salon, and the event will conclude at 4 p.m. The purpose of the symposium is to highlight student achievement and inform the campus community of the excellent quality and diversity of research and creative activity being conducted. fmi-www.csun.edu/graduatestudies.

Service Learning Events

The Center for Community Service Learning invites all faculty and students to participate in fall 2001 service learning
events, grants and opportunities. For further information and to register for attendance at events, contact the center at x7395, mail drop 8370 or e-mail commserlearn@csun.edu. The following events are upcoming:

- Faculty Curriculum Development Grant Training:
  9 a.m.-4 p.m. Fri., Dec. 7 in Sierra Hall, 4th floor, room 451.

America Responds to Terrorism

U.S. Rep. Brad Sherman will address the campus community and invite questions and comments on terrorism and the war in Afghanistan from 12:15-1:15 p.m. Mon., Dec. 3 at the Performing Arts Center. fmi-x2124.

Anthropology Lecture

The Anthropology Department is hosting a lecture honoring the late professor Keith Morton titled "Grandma's Home Cooking Changed the Course of Human Evolution." 4 p.m. Wed., Dec. 5 in Sierra Hall, 4th floor, room 451. Margaret Schoeninger, anthropology professor from UC San Diego, will be the speaker. An endowment in Morton's memory will be established. Tax-deductible contributions may be made to the Keith Morton Memorial Scholarship/CSUN Foundation, and sent to mail drop 8244. fmi-x3331.

Classes

Faculty/Staff Computer Workshops

ITR is offering the following workshops in the Oviatt Library garden level, room 30, Windows NT Lab (except as noted):

- Computer-Based Training (CBT): Getting Started: 2-4 p.m. Tue., Nov. 27.
- PhotoShop 6.0 for Beginners: 9 a.m.-noon Wed., Nov. 28 in Oviatt Library garden level, room 32, Macintosh Lab.
- Access 2000 Forms: 9:30-11 a.m. Thu., Nov. 29.
- Creating a Basic PowerPoint 2000 Presentation: 2-4:30 p.m. Thu., Nov. 29 in Oviatt Library garden level, room 32, Macintosh Lab.

For reservations, x2204 or training@csun.edu.

Health/Safety Workshops

The Office of Environmental Health and Occupational Safety offers a variety of health and safety workshops. All classes will take place in the Oviatt Library, Human Resources training room 16. For reservations, call x2401. The schedule is:

- Hazard Communication: 2-3 p.m. Thu., Nov. 29. This is required training for employees who work with hazardous substances on the job.
- Defensive Driver: 8:30 a.m.-noon or 1-4:30 p.m. Thu., Dec. 6. This class reviews safe driving techniques through video, lecture, tests and personal experience. Powered Cart Safety Program is included. This course is required to drive state vehicles, including electric carts.

Faculty Workshop
The offices of Undergraduate Studies and Online Instruction are sponsoring faculty computer workshops to facilitate online teaching and learning. All workshops are in the new faculty lab in Sierra Hall, fourth floor, room 442. Workshops may be taken individually and assume no prior knowledge. Before taking a workshop course, you must sign up for a WebCT account on that topic at www.csun.edu/~webteach/WebCTHelp.html. For reservations, call x6558. The next workshop is Blackboard: 2-3 p.m. Thu., Nov. 29.

Deadlines

Resident Director Positions

Application packets are available for Resident Director positions with CSU International Programs. Full-time, tenured or tenure-track faculty members holding a teaching or administrative appointment on a CSU campus are eligible to apply.
