Five-county population of persons of Russian ancestry is 166,219 and change in that population between 1990 and 2010 is a decrease of 30,248.

Five-county population of persons of Russian ancestry is 166,219. Census ACS data are from a five-year sample. Bar length indicates proportion of all valid tracts included in a category. In most cases a category includes 2, 3, 5, 10, 30, 40, or 50 percent of the included tracts. The bar length of the excluded tracts is not related to its tract count.
