Five-county 2010 population of Cambodians is 44,277 and change
in that population between 1990 and 2010 is an increase of 8,423.
Census 2010 race data are from SF1. 1990 estimates of race
population in 2010 tracts are based on the 1990 Fulcounr table created by John R. Logan,
Five-county population of Cambodians of a single race only is 44,277.

Bar length indicates proportion of all valid tracts included in a category. In most cases a category includes 2, 3, 5, 10, 30, 40, or 50 percent of the included tracts. The bar length of the excluded tracts is not related to its tract count.
